- (d) "fully funded" when applied to a pension plan, means a pension plan that at any particular time has assets that will provide for the payment of all pension and other benefits required to be paid under the terms of the plan in respect of service rendered by employees and former employees prior to that time;

- (f) "initial unfunded liability" means the amount by which, on the 1st day of January, 1965, or the date on which the plan qualifies for registration, or subsequently as the result of an amendment, the assets are required to be augmented to ensure that the plan is fully funded;
- (g) "provisionally funded" when applied to a pension plan, means a pension plan that at any particular time has not assets sufficient to make it fully funded but has made provision for special payments sufficient to liquidate all initial unfunded liabilities or experience deficiencies; and

2.—(1) An application for registration of a pension plan shall be in Form 1.

(2) Every pension plan submitted for registration shall include a provision for funding which shall set forth the obligation of the employer to contribute both in respect of the current service cost of the plan and in respect of any initial unfunded liabilities and experience deficiencies.

(3) The employer shall pay currently into any plan or fund providing pensions for his employees,

 - (ii) in the case of an initial unfunded liability resulting from an amendment to a pension plan made on or after the 1st day of January, 1965, or resulting from the establishment of a pension plan on or after the 1st day of January, 1965, fifteen years from the date of such amendment or establishment;
 - (c) where a pension plan has an experience deficiency, special payments consisting of equal annual amounts sufficient to liquidate such experience deficiency over a term not exceeding five years from the date on which the experience deficiency was determined.

(5) Where an insured pension plan established before the 1st day of January, 1965 is funded by level annual premiums to retirement age for each individual member, it shall be deemed to meet the requirements of subclause i of clause b of subsection 3.

3.—(1) On or before the 1st day of January, 1966, in the case of pension plans registered on or before that date, or within sixty days after the date of establishment of the plan in other cases, the employer shall submit a report of the person authorized by section 5 certifying,

4.—(1) The employer in respect of a registered pension plan shall cause the plan to be reviewed by a person authorized by section 5 not more than five years after registration and at intervals of not more than five years thereafter and the person reviewing the plan shall prepare a report certifying,

- (b) the surplus or the experience deficiency in the pension plan after making allowance for the present value of all special payments required to be made in the future by the employer as determined by previous reports; and
- (c) the special payments which will liquidate any such experience deficiency over a term not exceeding five years.

(2) The employer shall file the report with the Commission upon its receipt.

(3) If the report of a person authorized by section 5 discloses a surplus in a pension plan, the amount of any future payments required to be made to the fund or plan may be reduced by the amount of such surplus.

5. The reports and certificates referred to in sections 3 and 4 shall be made by an actuary, except that reports and certificates in respect of,

may be made by an accountant or a qualified officer of the insurance company or of the trust company, or of the Annuities Branch, Department of Labour (Canada) administering the plan.

6. The annual information return required under subsection 4 of section 18 of the Act in respect of every registered pension plan shall include,

- (c) a statistical report setting forth the membership position of the plan.

7.—(1) Every pension plan shall be deemed to be solvent if it is fully funded or provisionally funded.

(2) A pension plan administered for employees of a government shall be deemed to be solvent if,

- (a) each year the cost of current service benefits for that year is paid;
- (b) interest is paid on the amount of any initial unfunded liability at the 1st day of January, 1965, at an annual rate calculated to prevent an increase in liability;
- (c) any initial unfunded liability created by an amendment to the plan is liquidated by special payments over a term not exceeding fifteen years from the date of such amendment; and
- (d) any experience deficiency is liquidated by special payments over a term not exceeding five years from the date on which such experience deficiency was revealed.

8. Where a registered pension plan is amended, the employer shall immediately file with the Commission a copy of the amendment and such additional information and reports as the Commission requires to determine the amount of initial unfunded liability created by the amendment and the special payments required to liquidate the initial unfunded liability.

9. Upon application for registration of a pension plan having the number of members shown in column 1 of the following Table, the employer shall pay the registration fee set opposite thereto in column 2:

TABLE OF REGISTRATION FEES

COLUMN 1	COLUMN 2
Number of Plan Members	Registration Fee

10.—(1) Every pension plan filed with the Commission for registration shall be accompanied by a certified copy of the trust deed, insurance contract, by-law or other document under which such plan is constituted.

(2) The Commission may, at any time upon reasonable notice, require an employer to obtain and file such special reports as the Commission requires.
